NECESSITY OF EXISTENCE

Being that:

- The politics that dominates the Albanian political scene cannot be directed towards rightful solution of the Albanian issue, amongst others, because it is partial and institutionalist;*
- The international factors concerning the unresolved Albanian issue in the first place consider their own interests, therefore we cannot expect from others to solve our problems:*

MU considers that in order to realize their objective, the Albanian people need a nationwide politics which is capable of rightfully addressing for solution and rightfully solving our national issue. This is primarily a vital need for development of Albanian
